

## OUR MISSION

At kin:pathic, we work with you to provide transformative autism care supported by empathic therapy and state of the art technology.

The kin:pathic hybrid model enables us to service families in any combination of home, clinical, school and remote settings.

## Accepting Clients — Immediate Openings For New Nashua, NH Learning Center

### Flexible Scheduling For:

#### Art & Music Therapy

#### Comprehensive ABA Services

Therapy session for children up to age 10, designed to address multiple treatment areas and family goals. Typically 15-40 hours /week.

#### Focused ABA Services

Programs for school-aged children who need therapy to address a specific skill or treatment goal; or to advance in social skills, self-help skills, language and communication skills. Typically 5-15 hours/week.

#### Social Skills Groups

#### Acceptance & Commitment Therapy

#### EIBI -Early Intensive Behavioral Intervention

Early childhood development program ideal for children 18 months to 5 years with an autism diagnosis. Addresses developmental delays, communication, and social and emotional development in a play-based, enjoyable therapy experience.
