### **KIN:PATHIC CARES LAUNCHES AUTISM POETRY PROJECT** *A Creative Way To Celebrate World Autism Day 2022*

NASHUA, NH, February 7, 2022 -- **Kin:pathic Cares** is proud to launch the Autism Poetry Project and invites the Autism community to post original poems through Instagram.

The Autism Poetry Project is an initiative to connect the global autism community through the sublime power of inclusive poetry. It offers the unique opportunity for anyone in the autism community to creatively express their experiences through poetry. Today marks the beginning of two exciting months of submissions culminating in a visual wall of poetry at kinpathic.com on World Autism Day, April 2nd, 2022.

Current clients of kin:pathic as well as all ages of the general public in the community are encouraged to participate. Original poetry can be submitted by uploading original poems as visual texts in any language to Instagram, tagging @kinpathic, and adding #autismpoetryproject in the description.

Please be sure to tag the post with @kinpathic if you agree to having it included on the kin:pathic cares poetry wall in honor of World Autism Day.

Kin:pathic strives to help families through behavioral science and compassionate care. Launching the Autism Poetry Project is part of an effort to showcase and support neurodiverse voices while reminding us of the transformative power of empathy through art.
